A Study of Hindi E-Learning: Identity and Possibilities

Athila Kothalawala
Hindi Teacher
Indian Cultural Centre
Colombo

In my presentation I have attempted to express the possible ways an E-Learning Module for Hindi Language may be designed, developed and applied in a most cost efficient way. This is keeping in view to utilize the availability of computers, available high speed internet connectivity, backbone Infrastructure Island wide for ease and convenience of spreading Hindi education. I have described the elementary needs and steps needed to design and develop a learning module (for Hindi language) in my paper / presentation.

Key words: E-Learning module, Hindi language, Hindi education, computers
