### **ABSTRACT**

The objective of this study is to analyze the abnormal sexual behaviors and how do they shape by the media. Even though, definition to the abnormal sexual behavior is also controversial, in this study, my conception is that so called sexual behaviors have been shaped over last years' by the malpractice of media in the forms of pornography, advertising, cinematic expressions, unethical media programmes, pseudo reporting based on high marketing, narration of unethical human relationships.

This is a qualitative inquiry , conducted based on the observation and interviewing methods covering five provinces serially Western, Central, North-Western, North-Central and Southern in Sri Lanka.

**Technical Terms;** Abnormal sexual behaviors, pornography, advertising, cinematic expressions
